

FOR BIGGER YIELDS THIS YEAR, START SMALL.

MAXIMIZE EVERY GRANULE WITH
NEW FERTILIZER BIOCATALYST

TITAN[®]
XC 

Release more nutrition. Expect more results.

Now you can make dry fertilizer more efficient - and increase crop yield potential - by adding Titan XC, a unique fertilizer biocatalyst. Titan XC actually changes the way fertilizer responds to soil. Titan XC "unlocks" applied nutrients, making them available more quickly so more of them get absorbed by plant roots. With its higher concentration of active ingredients, next-generation Titan XC is also easier to apply. Make every granule and dollar go farther, with Titan XC.

Contact your local Nutrien Ag Solutions dealer to learn more about Titan XC
