

Fall Radio Script

Extract Power by Accomplish

30 sec

This fall, let the power of Extract PBA help you realize the full nutrient potential of your crop residue. By speeding decomposition and releasing valuable nutrients from your residue back into the soil, Extract Powered by Accomplish makes the nutrients you already have more available for next season's crop.

Extract PBA is an exciting new nutrient release and residue management technology from Loveland Products. Use Extract PBA to release the nutrients locked up in your residue, and for easier plantability, a more even crop emergence, and the potential for increased yields next season.

Ask your local Nutrien Ag Solutions dealer about Extract PBA today.
