

Awaken ST nutritional seed treatment.  
**Rise and shine.**

Get your wheat seeding off to a stronger, healthier start to help ensure better yields. With Awaken ST, wheat seedlings rise faster and get growing sooner. Awaken ST, a nutritional seed treatment made from a complex of zinc ammonium acetate with potash and a balanced micronutrient seed treatment package, stimulates early root growth and helps wheat to extract more soil nutrients. That's what you need for a stronger start, a better crop and bigger yields.
